

Help us build a  
**#DisabilitySmartWorld**

## What's happening?

More than one billion people in the world have a disability. Many experience discrimination, stigma and a lack of practical support. It's time for this to change.

It's time to build a  
**#DisabilitySmartWorld.**

## What do I need to do?

Join global businesses such as **Shell, Barclays, EY, Atos and GSK** in standing with us to launch the Global Business Disability Framework: a unique blueprint designed to empower global business to adopt disability-smart best practice wherever it operates in the world.

**About 15% of the world's population has a disability, yet little has been done at a global level to assess customer and employee experience. The Global Business Disability Framework seeks to change this."**

**Diane Lightfoot, CEO,  
Business Disability Forum**

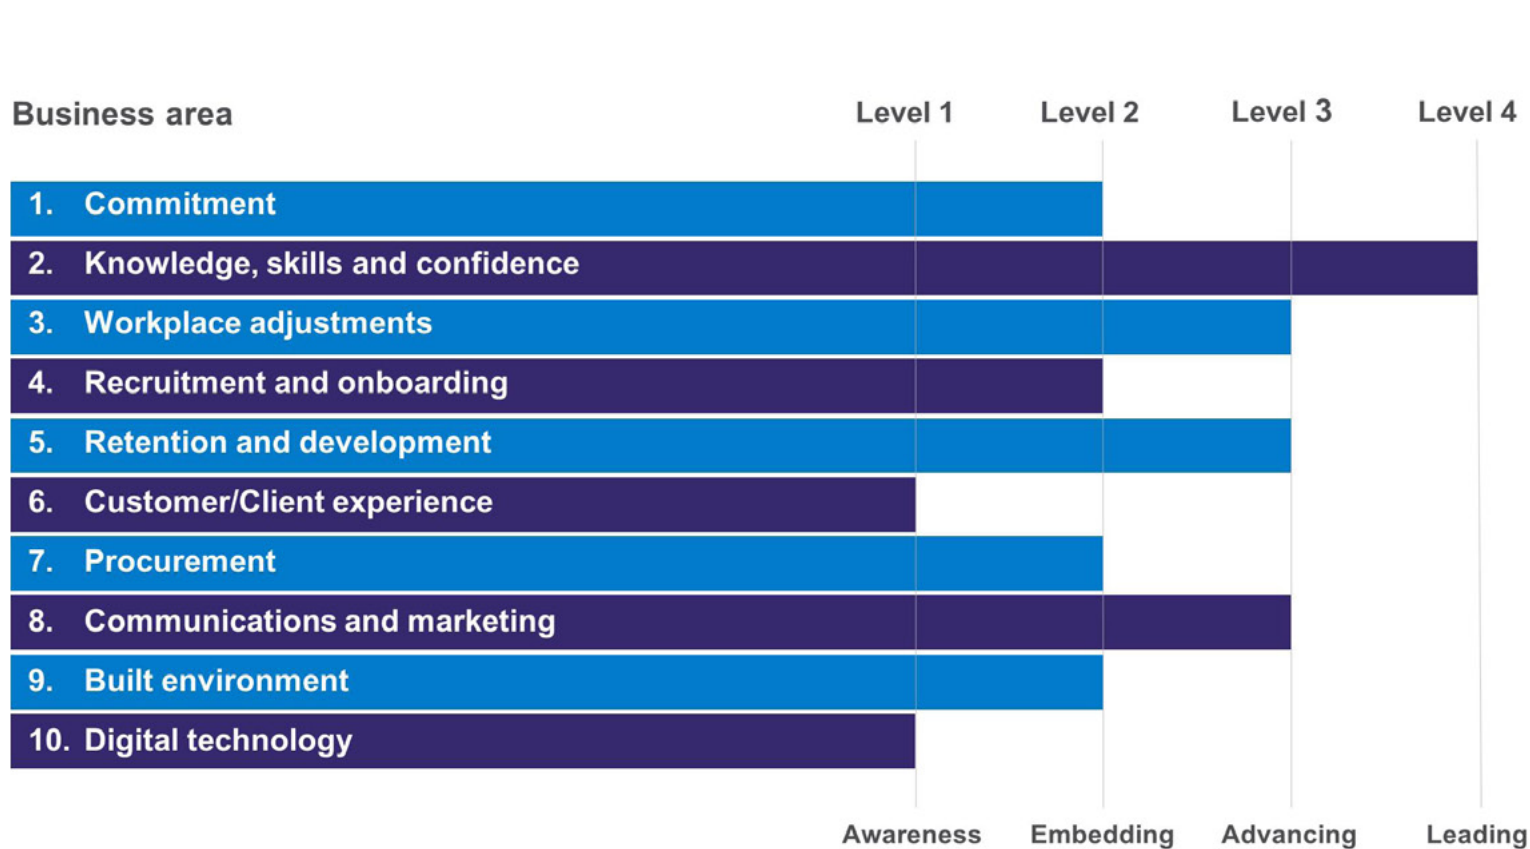

## We're here to help

Use the Global Business Disability Framework and help us build a **#DisabilitySmartWorld.**

# Your Global Business Disability Framework

## Example of scoring

Average score

The Global Business Disability Framework will give your organisation an average score based on levels of practice in each part of your business.

**“As increasing numbers of organisations work across international borders, there is great utility in having a single standardised approach based on best practice and business rewards.”**

**Neil Milliken,  
Head of Accessibility & Digital Inclusion, Atos**
