

Make your organisation disability-smart. Our consultancy service helps organisations embed disability into the mainstream. Whether you're looking for a full-scale audit or a smaller project, we provide tailored practical support to meet your specific needs. Why work with us? highly experienced consultants who know how to support organisations to embed best practice in the field of disability and inclusion so it becomes business as usual. Consultants with lived experience of disability, no project too small or too large. Examples of recent projects include workplace adjustment reviews, policy and procedure development, customer journey reviews, masterclass workshops, access reviews and audits, online training modules, website accessibility. This is not an exhaustive list. We can tailor our expertise to whatever project you may need.

We will work with you taking a practical collaborative approach. How we work. Assess current policies, practices, and workplace environments. Identify areas of good practice and gaps. Deliver actionable recommendations tailored to your organisation. Provide ongoing guidance, training, and support as needed. Find out more at businessdisabilityforum.org.uk/consultancy or email Rick Williams, head of consultancy at rickw@businessdisabilityforum.org.uk.

We work with both BDF members and partners and non-members. Members and partners benefit from discounted rates.
